For applications:

<u>www.rec.polimi.it/offerta-formativa/summer-school-wm/</u>

Selections are based on CV. Several scholarships are available.

The school is co-organized by COST ACTION 18214 entitled «The geography of New Working Spaces and the impact on the periphery"

WHO CAN APPLY?

_Undergraduate and graduate students who are interested in design, strategies, change management and facility management, as well as the effects of new working spaces on the workers, urban space and peripheral areas.

_Researchers who are investigating the social, economic and environmental impact of the most recent working space changes, and those who have joined the CA18214 or are interested in the topic of the action.

SUMMER SCHOOL DESCRIPTION

2020 edition: focus on coworking spaces

By referring to the 'COSTACTION 18214', in which lecturers and organizers are involved, and by presenting preliminary outcomes of the COSTACTION 18214, the participants of the summer school will get a comprehensive overview of the current knowledge on the **new working spaces such as coworking spaces** and new trends in the local and international contexts.

The nature of work has been evolving recently, along with the way working spaces are used. This dynamic has major implications for working space design, management and location that need to respond to new challenges. This course will assist students, practitioners and researchers to engage with these ongoing evolutions.

Participants will learn to:

- Integrate different disciplines in a sound reasoning around the workplace, with a focus on coworking spaces:
- Manage the planning, programming, and executing phases of a workplace change process;
- Manage planning and policy tools in fostering coworking space diffusion:
- Picture the future evolution of workplaces and its impact at the building and local scale, both in core and peripheral areas.

III EDITION SUMMER SCHOOL ON WORKPLACE MANAGEMENT

Focus: COWORKING SPACES COST ACTION 18214

KEY DATES

Application

By 20 June

Communication of acceptance

By 23 June

Deadline registrations & fee payment (€200*).The SSWM is free for PoliMi students

Start of the Program

6 July streaming 13 July live

(*) The fee is non-refundable except special cases (visit the website)

WHY TO APPLY?

- 1. Enter in an international community of researchers and practitioners.
- 2. Train your design and managerial skills related to working spaces.
- **3.** Understand contemporary and future working practices.

WHAT IS COST ACTION?

COST - European Cooperation in Science and Technology - is Europe's longest-running intergovernmental framework supporting the collaboration of nationally funded science and technology research through the creation of networks. Also known as Actions, these networks allow scientists to grow their ideas by sharing them with their peers and thereby give impetus to their research, career and innovation.

COST 18214: The COST project 'The geography of New Working Spaces and the impact on the periphery' involves 88 research partners from 27 countries - from October 1, 2019 to September 30, 2023. The aims of the project are i) sharing the scientific outcomes on new working spaces such as Coworking (CS) and Maker Spaces (MS) (definitions, typologies and geographical distributions) ii) comparing the best practices and direct and indirect impacts with a particular focus on the periphery iii) sharing the policy tools across the countries.
